SUB: Recommendation for Bharat Gaurav Award 2016 to Jay Chhaniyara

Jay Chhaniyara, a talented boy, from Rajkot – Gujarat is suffering from a medical disease called Cerebral Palsy since birth, and he is 80% disabled boy by body but he is proved himself winner with his unstitched efforts to fight against his bad luck.

Jay has developed a skill of Mimicry to forget his pain that one and all who attend his performances spontaneously acclaim "Jai Ho". His style, subject and types of jokes compel one to laugh loudly.

His performances are being arranged on TV, Public Meetings, and many occasions etc., for a motivational dose that people needed to survive in this competitive world. I am glad to know that he has done more than 1500 stage performance, and also achieved seven prestigious world records as "India's Youngest Disable Mimicry Artist" so far.

His determined will to fight against the worst situation facing since birth deserves full rank. I strongly feel he is the right person for getting "Bharat Gaurav Award" and without any hesitation recommend for the same.

Thanks and Regards.
